INTERN, CodeSoft

Codesoft is a prominent software company specializing in web development solutions. During my internship, I gained practical experience in front-end and back-end web development using technologies like HTML, CSS, JavaScript, and Node.js. I collaborated with teams to create and deploy responsive web applications, gaining valuable insights into full-stack development processes. This internship enhanced my skills in web development and prepared me for a career in creating dynamic and user-friendly web solutions.

P R O J E C T S

QUIZ WEBSITE :

QuizMaster is a dynamic, web-based trivia platform crafted with HTML, CSS, and JavaScript, offering a diverse range of quizzes with real-time scoring and interactive feedback.

PhotoVault:

A sleek web-based photo gallery built using HTML, CSS, and JavaScript. Users can securely store and organize their photos, with features like album creation, tagging, and responsive design.
